To whom it may concern,

I am writing in reference to your position at O'Reilly Media for a Senior XD Designer. I hope you will consider me for this position.

After reading about the job description, I was excited about the position with regards to collaborating across teams within the organization, advocating for the user and most importantly working in a team atmosphere.

Currently, I am a Senior Web Designer at Zondervan, a division of HarperCollins Publishing. In this position, I perform a wide variety of duties, which includes UX design for internal tools and book launch websites, e-commerce UX, mobile app design and marketing emails. Currently I'm working on landing page designs, conversion tracking and optimization with our in-house marketing teams.

My core passion is seeing how users are impacted by design thinking and development.

If you have any question feel free to contact me. I look forward to hearing from you in the near future.

Regards,
Keith Stoneman
